Dear Colleagues,

Working with the Mark Blocker through the Society for Vascular Surgery was an excellent experience! He helped me navigate the multiple plans and options for disability and malpractice for myself and the group. It can be daunting with so many selections but the process was very smooth and seamless. He made me comfortable by answering all my questions with a wealth of knowledge, and it helped me arrive at the best plan for me.

I highly recommend going through the Society for Vascular Surgery for your insurance plans – these are tailored for vascular surgeons and catered by professionals who have our best interests at heart.

All my best,

Nicolas J. Mouawad, MD MPH MBA FACS RPVI
